

ENROLL US!

We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

GENERAL INFORMATION

Name of Organization: K&L Microwave, Inc. Facility Name: Salisbury, MD
Principal Contact: Al Knezevich Title: Director, Quality Assurance
Facility Location: _____ City/State/Zip: _____
Mailing Address: 2250 Northwood Drive City/State/Zip: Salisbury, MD 21801
Phone: (410) 749-2424 Fax: (410) 749-1598
Email: aknezevich@klmicrowave.com EPA RCRA ID Number: MDD982579336

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1
Narrative description of proposed project and the method we will use to measure success: _____

K&L Microwave has, in the past, used leaded solder and leaded tin in the manufacture of microwave filters. By substituting non-leaded solders and non-leaded tin where possible, we will reduce our use of lead from 400 pounds a year in 2003 to 50 pounds a year in 2006.

- Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated from a baseline amount of 400 pounds generated in January, 2003 (month/year) to a reduced amount of 50 (or less) pounds generated by July, 2006 (month/year).
- To accomplish this goal, we will explore the following source reduction options (check all that apply):

<input checked="" type="checkbox"/> Equipment or technology modifications.	<input checked="" type="checkbox"/> Process or procedure modifications.
<input checked="" type="checkbox"/> Reformulation or redesign of products.	<input checked="" type="checkbox"/> Substitution of less toxic raw materials.
<input type="checkbox"/> Improvements in inventory control.	<input type="checkbox"/> Improvements in maintenance/housekeeping practices.
<input type="checkbox"/> Other (explain): _____	
- Our (optional) voluntary recycling or recovery goal for Chemical #1 is to increase the amount of this chemical recycled or recovered from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).
- To accomplish this recycling or recovery goal, we will explore the following options (check all that apply):

<input type="checkbox"/> Direct use/reuse in a process to make a product.
<input type="checkbox"/> Processing the waste to recover or regenerate a usable product.
<input type="checkbox"/> Using/reusing waste as a substitute for a commercial product.
<input type="checkbox"/> Other (explain): _____

Authorizing Official/Title: Al Knezevich./Director, Quality Assurance

Date: November 10, 2004

Project Contact (if different from Authorizing Official): _____

Phone: (410) 749-2424

NOTE: use supplemental sheets for additional goals.
